MTH4103 (2013-14)

Course Information

Winter/Spring 2014

Lecturer: Dr John N. Bray **Room:** B54

Office Hours: See my webpage http://www.maths.qmul.ac.uk/~jnb/. Please note that these hours are not finalised, and are liable to change for various reasons. Exceptions will also be posted there. My e-mail address is also given (in bits) on my homepage.

Lectures: Monday 14:00–15:00 Arts 2 Lecture Theatre

Tuesday 12:00–13:00 Arts 2 Lecture Theatre Tuesday 15:00–16:00 Arts 2 Lecture Theatre

Exercise Classes: You will be assigned to a specific group, place and time for this. You will not be able to change group. The classes will take place in Weeks 2–6 and 8–12. This year all classes take place on Wednesday, in one of the two periods 11:00–12:00 or 12:00–13:00.

Course Information: All information is available on the course webpage at

http://www.maths.qmul.ac.uk/~jnb/MTH4103/

It is recommended that you bookmark this page and visit it regularly. Some information is also handed out in lectures. One should be able to access a QM "+" version at http://qmplus.qmul.ac.uk/course/view.php?id=3109.

Course Text: A. E. Hirst. *Vectors in 2 or 3 Dimensions*. Elsevier, 1995. You are *not* required to buy this book.

Assignment Information: There will be a class test in Week 7, worth 10% of your overall module mark. There are also weekly exercise sheets, which are marked for feedback only. Please hand in only the question(s) you are instructed to. Attendance at exercise classes and handing in assignments is compulsory.

Assessment: In-term Test (Week 7) 10%; Final Examination 90%.

CALCULATORS ARE NOT PERMITTED

in either the examination or test for this course.
