

Research Publications

- L I Pettit and A F M Smith (1983) Bayesian model comparisons in the presence of outliers. *Bull. Int. Statist. Inst.* **50**, 1, 292–306.
- L I Pettit and A F M Smith (1985) Outliers and influential observations in linear models (with discussion). In *Bayesian Statistics 2*, 473–494, (eds. J M Bernardo et al), North-Holland, Amsterdam.
- L I Pettit (1986) Diagnostics in Bayesian model choice. *The Statistician*, **35**, 2, 183–190.
- J M Streete, D J Berry, L I Pettit and J E Newbery (1986) Phenylethylmalonamide (PEMA) serum levels in patients treated with Primidone, and the effects of other antiepileptic drugs. *Therapeutic Drug Monitoring*, **8**, 161–165.
- L I Pettit (1988) Bayes methods for outliers in exponential samples. *Journal of the Royal Statistical Society, B*, **50**, 371–380.
- L I Pettit (1990) The conditional predictive ordinate for the normal distribution. *Journal of the Royal Statistical Society, B*, **52**, 175–184.
- L I Pettit and K D S Young (1990) Measuring the effect of observations on Bayes factors. *Biometrika*, **77**, 455–466.
- L I Pettit (1992) Probabilities that contaminated normal observations are extreme. *Journal of Applied Statistics*, **19**, 111–116.
- L I Pettit (1992) Bayes factors for outlier models using the device of imaginary observations. *Journal of the American Statistical Association*, **87**, 541–545.
- L I Pettit (1992) Bayes factors and the effect of individual observations on the Box-Cox transformation. In *Bayesian Statistics 4*, (eds. J.M. Bernardo et al.), 731–739, Oxford University Press.
- L I Pettit (1993) Inferences about ordered parameters - An Astronomical problem. *The Statistician* **42**, 491–496.
- M P Wiper and L I Pettit (1994) Bayesian estimation of the Binomial parameter n . *Applied Statistics* **43**, 233–236.
- L I Pettit (1994) Bayesian approaches to the detection of outliers in Poisson samples. *Communications in Statistics - Theory and Methods* **23**, 1785–1795.
- M P Wiper and L I Pettit (1996) An improved model for combining experts' forecasts. In *Bayesian Statistics 5*, (eds. J.M. Bernardo et al.), 809–813. Oxford University Press, Oxford.
- L I Pettit (1996) Learning about degradation models and prognostic factors. In *Data Analysis and Information Systems. Statistical and conceptual*

approaches. *Studies in Classification, Data Analysis and Knowledge Organisation vol. 7*, (eds H.H. Bock and W. Polasek), 332–341. Springer-Verlag, Heidelberg.

K D S Young and L I Pettit (1996) On priors and Bayes factors. *Journal of Econometrics*, **75**, 113–119.

K D S Young and L I Pettit (1996) Measuring discordancy between prior and data. *Journal of the Royal Statistical Society, B*, **58**, 679–689.

J L Palmer and L I Pettit (1996) Risks of using improper priors with Gibbs sampling and autocorrelated errors. *Journal of Computational and Graphical Statistics*, **5**, 245–249.

L I Pettit and J L Palmer (1997) Seasonal patterns of fertility – A Bayesian approach. *Journal of Applied Statistics*, **24**, 139–145.

J R Donnison and L I Pettit (1997) A Bayesian approach to trends in cometary magnitude data. *Planetary and Space Science*, **45**, 841–845.

L I Pettit and K D S Young (1999) Bayesian analysis of inverse Gaussian lifetimes with measures of degradation. *Journal of Statistical Computation and Simulation*, **63**, 217–234.

J R Donnison and L I Pettit (1999) Analysis of power law assumptions for short-period comets and Kuiper bodies. In *Evolution and Source Regions of Asteroids and Comets, Proceedings of IAU Coll. 173*, (Eds J Svoren, EM Pittich and H Rickman), Astron. Inst. Slovak Acad. Sci., Tatranska Lomnica.

M P Wiper, L I Pettit and K D S Young (2000) Bayesian inference for Lanchester type combat models. *Naval Research Logistics*, **47**, 541–558.

L I Pettit, M P Wiper and K D S Young, (2003) Bayesian inference for some Lanchester combat laws. *European Journal of Operational Research*, **148**, 152–165.

L I Pettit and R A Sugden, (2003) Outlier robust estimation of a finite population total. *Bayesian Statistics 7*, 631–639, (eds. J.M. Bernardo et al.) Oxford University Press, Oxford.

N Soothinathan and L I Pettit, (2005) Bayes methods for outliers in binomial samples. *Communications in Statistics, Theory and Methods* **34**, 351–366.

L I Pettit, (2005) Influential Observations. In *Encyclopedia of Statistics in Behavioral Science*, (eds B S Everitt and D C Howell), Chichester, Wiley, 920–923.

K D S Young and L I Pettit, (2006) The effect of observations on Bayesian choice of an autoregressive model. *Journal of Time Series Analysis*, **27**, 41–50.

A F M Saiful Islam and L I Pettit (2010) Bayesian sample size determination using linex loss and linear cost. To appear in *Communications in Statistics, Theory and Methods*
